Our memories :

“Stay in Parma was a great adventure. Through the Comenius Programme I had the opportunity to make a lot of new friends with people from other countries and of course to visit Italy, which is beautiful. I had the opportunity to try the local dishes. I met the sights and culture of this region. People who were around me were kind and welcoming and especially at my host’s family house I felt like home. The most important fact is that, I improved my English language. I spent unforgettable moments and it was really hard for me to say goodbye with the local people. Now I have got amazing memories and a desire to return ...”

Patrycja Misztal III A

“My friends from Italy were very caring, especially Vittoria with whom we became friends. Through this journey I met Parma and Florence. Those cities impressed me with their historical buildings and artworks. This project is something really wonderful. Now I persuade my colleagues from school to participate in this project.”

Magdalena Ligorowska III C

“I was waiting impatiently for this trip. Eveything fascinates me : flying by plane , beautiful Italy and its inhabitants... Working under the project in Parma we were taking part in “Wordcrossing game” according to our task was to create the most interesting story in English language. We participated in the meeting with young writers: Laura Re and Massimiliano Parenti. We made a presentation about our favourite book „ The Girl and the Wolf”. We visited the centre of the city and the Town Hall and of course Pilotta Palace.

During the fourth day of our stay in Italy we met beautiful architecture of Florence (for example : Fortezza Da Basso , Santa Maria Novella , San Lorenzo , Santa Maria Del Fiore Piazza Della Republica and Palazzo Vecchio). During this stay we really liked each other with our new friends both boys and girls... On Friday we visited Ettore Guatelli Museum and the vineyard situated near Parma. I am very happy that I could take part in this kind of a meeting. Now, I am waiting for my new friends in Poland ‘’.

Alicja Konieczna III A

“Trip to Parma was a real and fantastic adventure for me. Each day was bringing new experience. Our new Italian friends showed us the city. They took us for the best ice cream in that area and of course for some pizza.

I am impressed with the local museum that includes sixty thousand very old items. I was also really glad that I could visit the vineyard. That I could realize how much work people have to do to produce high quality wines. Currently I am planning another trip to Italy. I think that those trips are really important and I hope that it can be more such fantastic trips in the future.”
