

## **GAZETA JĘDRZEJOWSKA – 21 November 2012**

### **Secondary School students expedition**

#### **They visited Spain**

A group of Roman Czernecki Secondary School students was invited by Institut Pere Vives Vich in Igualada in Spain. They participated in international partnership school project meeting. This project is being carried out in the framework of Partnership Schools Comenius Project – Wordcrossing. Secondary School in Słupia was represented by two teachers Katarzyna Stepień - project coordinator, Małgorzata Szwaja – Science subjects teacher and four students Marta Sobczyk, Justyna Wcisło, Paulina Bratek and Patryk Raczyński.

The meeting was also attended by representatives of the five schools from Spain, Romania, Italy, Turkey and Greece. Participants got to know each other, they agreed to carry out tasks, calendar subsequent visits, the functioning of the website design and communication. Teachers and students had the opportunity to visit many interesting places that delighted amazing architecture and design. Throughout the stay in Igualada students meet with their peers, they visited museums, went on a trip to Barcelona and Montserrat mountain. I will keep the fondest memories of a visit to Barcelona and stay with Elena's family, a Spanish friend. Her family is unique. Even for a moment I didn't feel that I was in a strange house. These people are warm, the climate of the country is filled with feelings of warmth and kindness. I have not found in the English language many words to thank them, even in the Polish language it is difficult to find the words- Paulina reminds her stay in Spain.
